ALONZO COLLEN RETIRES TO PRIVATE LIFE.

A chestnut tree in Sicily was 204 feet in circumference in 1936. It's probably much smaller now, with all our GI Joes carving initials in it.

Think of the number of chestnuts that tree must have produced. Probably enough to stuff all the turkeys in Sicily.

It just seems that nobody can time those Detroit Tigers. Aren't they a snarly bunch?

Return of the good old-time dances is OK, but spare us from having to view the old-time family photo album.

Auto traffic is sure to become so heavy that people will take to the air. After that gets too heavy, we'll have to join the woodchucks.

The radio makes it possible for one to hear Gerald L. K. Smith without having to be seen at his meetings.

Gov. Dewey says that he never makes a statement without first to definitely know it is true. And by golly, we believe him.

Who says the younger generation is going to the dogs? Might better be keeping an eye on some of these 70-year-olders around town!

Sunday used to be a day of rest. Now it takes most of the other six days to rest up from Sunday.

Learning how to live well usually comes too late.

And, by golly, ain't Autumn grand?

FDR stole third on Willkie all right, but we doubt if he will do any stealing on Dewey.

Fall begins at 11:02 p. m. Friday. If today is a sample, we don't like it.

Railroads are making an enviable record for efficiency. And our local railroad men deserve a lot of credit.

If the railroads would only cut down on the charges, everything would be "jake".

Births

Mr. and Mrs. Ward Bearss of Grayling are the proud parents of a son, born at Mercy Hospital, Monday.

Mr. and Mrs. Ralph Millikin of Grayling have a daughter, born September 15.

A son was born to Mr. and Mrs. Donald Dobson of Grayling at Mercy Hospital, Sept. 12.

Mr. and Mrs. Elwin Clark of Gaylord are the happy parents of a baby girl, born at Mercy Hospital, September 12.

Attention Nurses!

The regular annual meeting of the Grayling Nurses' Association will be held Monday evening, September 25, at the Nurses' Home. Mrs. Thelma Brewington of Detroit will be the guest speaker.

There will be a meeting of the Club at 7:30 p. m., previous to the regular meeting.

Mrs. Irwin C. Cady

Mrs. Christina Cady passed away at 1:25 a. m., Thursday, September 7, 1944, at the age of 50 years, 4 months and 11 days, in Minneapolis, Minnesota, after an illness of two months. Former residents of Grayling, the Cady family moved to Kennewick, Washington, after leaving here.

Born April 27, 1894, at Langsville, Michigan, Christina Dubay was married to Irwin C. Cady on July 19, 1915, in Bay City, Michigan. She was a member of the Ladies' Altar Society of the Catholic Church.

Besides her husband, Irwin C. Cady, there are four children: Mrs. Irwin Wales, Mrs. Kenneth Moore, Irwin J. Cady, and Lawrence Cady; five grandchildren, and one sister, Mrs. Edward Boyer of Mt. Clemens; and four brothers, William Dubay of Pinconning, Peter Dubay of Omar Henry Dubay of Gladwin, and Thomas Dubay of Detroit.

The funeral was held at 9 a. m. September 11, 1944, at St. Mary's Church, Grayling, Rev. Fr. Francis Branigan officiating, with burial in Higgins Cemetery at Roscommon.

Pall bearers were: Hugo Schreiber, Charles Corwin, Edward Gierke, George Annis, Frank Decker and Howard Granger. Out-of-town relatives and friends attending the funeral were: William Dubay of Pinconning, Thomas Dubay of Detroit, Henry Dubay of Gladwin, Peter Dubay of Omar, Beatrice Maineaux of Saginaw, Lorette Godmer of Pinconning, Irwin C. Cady of Kennewick, Wash., Irwin J. Cady and family of Roscommon, Mr. and Mrs. Irwin Wales and family of Bay City, Mrs. Kenneth Moore of Ypsilanti, Mr. and Mrs. Lawrence Cady of Ypsilanti, and Miss Cecilia Woday of Ypsilanti.

DUCK HUNTERS' TIME TABLE

War Time Medicine To Be Discussed

The public is urged to be considerate of their Doctor of Medicine during his brief absence attending the 1944 Post-graduate Conference on War Medicine—the 79th Annual Session of the Michigan State Medical Society—to be held in the Civic Auditorium-Pantlind Hotel, Grand Rapids, the week of Sept. 25.

"The information medical doctors will redound to their patients' benefit," stated C. R. Keyport, M.D., Grayling, President of the Michigan State Medical Society. Those medical practitioners who attend the scientific assembly will hear, from nationally known lecturers and teachers from all parts of the United States and Canada, the most recent developments in clinical medicine and in research. Twenty-eight lecturers and teachers, both in and out of military uniform, will discuss the latest advance in the fields of surgery, medicine, psychiatry, obstetrics and gynecology, pediatrics, eye-nose-throat, dermatology and syphilology, anesthesia, pathology, and general practice.

Three-day Post-Graduate Course

On Monday evening and all day Tuesday, Sept. 25-26, the House of Delegates will conduct the business of the society.

The General Scientific Assemblies will begin on Wednesday morning, Sept. 27, and continue until the end of the War Conference, Friday, September 29. A concentrated post-graduate course on the Practice of Medicine in Wartime will be conducted during the three days of the session. A large exhibit of surgical and laboratory equipment complete with wartime improvements will feature the session.

A. S. Brun, M.D. of Detroit will be inducted into the presidency at the Grand Rapids conference. Other officers include: V. M. Moore, M.D. of Grand Rapids, Chairman of the Council; O. B. Beck, M.D. of Birmingham, vice-chairman of the Council; L. Fernald Foster, M.D. of Bay City, secretary; Wm. A. Hyland, M.D. of Grand Rapids, treasurer; P. L. Ledwidge, M.D. of Detroit, Speaker, and E. A. Oakes, M.D. of Manistee, vice-speaker of the House of Delegates of the Michigan State Medical Society.

The Woman's Auxiliary of the State Medical Society will meet Wednesday and Thursday, September 27-28.

Jingle, Jangle!

JUNGLE Jewelry, this Fall season, is for the Schoolgirl round necked cardigans—a MUST. An entire conglomeration of these irresistibles, incidentally, were selected at the recent accessory shows—packed in a hurry—and labeled GRAYLING.

Some other gadgets—not exactly in the gift line, but just "too, too" to resist, were an array of fancy dangly felt "Bicycle Clips" to slip over your little pink ears this Fall—since all sanity has come to be taboo in schoolgirl millinery mades. They're cute and flatter you end—as do the jeweled felt beanies and glamour girl fascinators coming in a luscious assortment of colors.

Cemetery Notes

Mr. Hugo Schreiber, Mr. John Knecht and Mrs. Schreiber, committee from Crawford County Grange, inspected the New Cemetery, and the Grange will provide shrubbery for one of the main entrances. We appreciate this co-operation on the part of the Grange.

Mr. John Knecht gave us an order for the complete rebuilding of his lot. Mr. and Mrs. V. P. Smith of Detroit called to look over their plot which we have just finished rebuilding and expressed themselves as very much pleased with results obtained.

Mr. Lee Paquet of Mackinaw City also called to look over the Burgess family plot, which he ordered rebuilt. Mrs. Christian Hansen and daughter were among our visitors this week and arranged to have their family plot rebuilt.

Mrs. Helen B. Routier visited the cemetery this past week, expressed herself as well pleased with the work we are doing, and also made us a substantial donation. Fred R. Welsh handed us a substantial check, which is his second donation toward the worthy cause. Mrs. E. J. Olson mailed us a very nice contribution and writes us: "I am enclosing check to help with the greatest work you are doing at the cemetery. It is about the biggest suggestion you may have to offer—so send them along."

The Appeal Of A
Trout Stream

The following interesting article is part of the talk given by P. H. Murdick, Jr., before the Grayling Kiwanis Club, September 14. -Editor.)

By P. H. Murdick, Jr.

Some people laugh when you speak of fishing. Why? Because they are ignorant of the fact that it is one of the greatest sports in which man participates. People do not realize that some of the most outstanding men in America have been fishermen and anglers. Daniel Webster, as he fished the waters of the Marshpee, a trout stream in New England, did a great deal of thinking and planned his work for the following winter. Joseph Jefferson, the actor and playwright, tells how he conceived and wrote the dramatized form of Rip Van Winkle on the banks of a Pennsylvania trout stream.

This art is one of the most ancient employments. Cavemen of the Paleolithic Age were susceptible to its fascinations, as is evidenced by the discoveries among troglodyte refuse of the tracings of the outlines of fish. Prehistoric man had artistic feelings, which he employed in faithful representations of the Mammoth he hunted and the fish for which he angled; and from the fact that many sketches of the latter are found engraved on his ornaments, may be inferred, not only his partiality for fish food, but his delight in successfully matching his superior intellect against the instincts of the denizens of the seas, lakes and rivers.

What to us is now a sport was to men in those days a necessary means of livelihood. After man no longer had to fish to obtain food, he still fished, not for the material gain, but because of the fascination it held for him. Why is it that men are so wrapped up in this sport that so many people condemn and think it to be a waste of time?

When one wanders along the grassy banks of a trout stream, and sees at frequent intervals tall hemlocks pushing their pointed tops into the sky; here and there fallen logs forming footbridges for the lower animals and human beings; dainty ribbon-like falls where the water tumbles over log and rock, adding to Natures beauty; how can anyone resist the call of all this beauty, even if he were not there to fish? Into this setting bring the clean competitive sport of fishing, and who can deny that it is irresistible?

A certain Philosopher has said that one picture is worth ten thousand words. It would be impossible for me to paint a word-picture of a trout stream, but try to imagine what there is in it that makes men work hard all winter, and go many miles for just a few weeks or days of this wonderful sport. As soon as the snow begins to melt in the spring, one will hear them talk of the trip they are going to take to their favorite stream.

Allow me to tell you of my favorite stream, the Pigeon River of Northern Michigan, and then of one thrilling combat which is typical of the many I engaged in—and perhaps then you will be able to see why this sport is so captivating.

One bright June day, when all Nature seemed to be in perfect state of harmony, I made my way to my favorite stream, intent on getting a mess of beauties. I ran the car along a sleepy old lane below which silvery water gurgled through meadows and thickets. I stopped at a deserted farm house at the head of a pasture where honey bees were buzzing in the wild honeysuckle nearby. A brace of partridge flew from a thicket not far away.

Meadowlarks were caroling sweetly... The far-off wall of a rain-croaker was audible...

On the far side of an old rail fence two red squirrels were barking at each other. Can you wonder that the day looked wonderful to me that fishing in such charming surroundings held an irresistible appeal?

Nervous fingers began to assemble the fly rod. It was but the work of a minute to thread the line through the guides, attach a strong leader, and fasten to the end a "Silver Doctor." Waders were next donned. I then started off through the tall grass that stood between me and the stream. Quietly I slipped up to the bank and still more quietly I cast my fly on the surface of the clear pool.

Bang!!! Something struck, and struck hard. I gave a quick jerk to set the hook, and the fight was on. This trout was determined to get away, but I was equally determined not to let him, and that was the whole thing in a nut shell.

It was apparent early in the struggle what Mr. Trout was trying for. His plan was to twist the line around some roots that lay underneath the heaving surface on the opposite side of the pool.

Once this sinister scheme bore fruit, he would not be mine.

Suddenly there was a lull, a sickening slackening of the line. "I've lost him!" I gasped, as my heart grew heavy. The words melted in my mouth as the reel shrieked. Mr. Trout was headed for the swift water at the head of the pool. He was still on the far end of the line, and there was still a chance that he would be mine. With renewed hope came determination, and I fought harder than ever.

The reward was well worth the effort, for in a moment he belonged to me, the whole thirteen inches of brook trout.

The Great Seal

The reverse of the Great Seal of the United States appears at the left of the reverse of the one dollar bills. Above the eye is the Latin motto "Annuit Coeptis," translated as "He (God) favored our undertakings."

The motto below the base of the pyramid is "Novus Ordo Seclorum," translated as "A new order of the ages." Both mottoes are condensations of excerpts from Virgil's "Aeneid." The unfinished pyramid is a symbol of strength; its unfinished condition denotes the belief of the designers of the Great Seal that there was still work to be done. The eye in a triangular glory, surmounting the pyramid, symbolizes an all-seeing Deity.

Rural Libraries

The last year has seen continued expansion of county rural library service. Nevada counties now are spending up to \$3,000 a year to establish county libraries under 1943 legislative provisions which raised the sum from \$1,500. Illinois legislature last year authorized the creation of public library districts, and allowed an increase in tax rates for support of county libraries.

MICHIGAN MIRROR

Newsworthy quotations from Michigan people in the news:

"I know this is not a personal welcome. Many of you moved here since I went away. So I know that you must be here because I have the grandest mother in the world, and you came out here simply to pay tribute to her son,"—Gov. Thomas E. Dewey at Owosso homecoming.

"The Chinese people have had dictatorships for 3,000 years. They will continue to have them,"—Dr. George Shepherd, former personal adviser to General Chiang Kai-Shek.

"None of the men I have appointed sought appointment,"—Gov. Harry F. Kelly, in naming Thomas A. Kenny his legal adviser, and two others to Wayne County judgeships.

"Michigan's liberalized 1943 workmen's compensation law has resulted in twice as speedy payments to injured workmen,"—Mrs. Betty W. Allis, chairman of the State Workmen's Compensation Commission.

"When peace comes, it is not merely a matter of turning off the war and turning on the peace spigot. Without advance planning and preparation, nothing will come of it,"—C. E. Wilson, president, General Motors Corporation.

"Control of industrial water pollution has lagged sharply during the war. The problem is of special significance in Michigan because of the necessity of safe recreation waters, particularly in proximity to urban and industrial centers where sources of pollution are most numerous,"—Milton P. Adams, secretary-engineer of the State Stream Control Commission.

"Carnivals could be limited to such recreational advantages as rides and clean entertainment, with the elimination of gambling and questionable shows, they might be of some value,"—Probate Judge S. H. Clink, Muskegon, after arrest of nine youngsters for juvenile delinquency, following one carnival in Muskegon.

"With wages frozen and bonuses prohibited, a retirement pension by management is equivalent to a government-approved salary increase without adding to the recipient's tax liability,"—Dr. John W. Riegel, director, University of Michigan Bureau of Industrial Relations, in

"But Superman does it all the time!"—Donald Vary, 7-year-old Rochester (N.Y.) lad who broke both legs in effort to soar from second-story window.

"They keep predicting Roosevelt will die in office if re-elected... They keep saying that I'll die, too, and I'm almost 92. I hope Roosevelt fools 'em,"—Mrs. Martha E. Truman, mother of Democratic vice-presidential candidate.

"I never can find a nickel when I need one,"—Nellie Taylor Ross, who, as director of U.S. mint, supervised making of 253,630,000 of 'em last year.

Liver Dumplings

1 pound liver
 $\frac{1}{2}$ t salt
 $\frac{1}{4}$ t pepper
 3 slices stale bread
 $\frac{1}{4}$ t nutmeg
 About two-thirds c of bread flour

1 $\frac{1}{2}$ t ground suet
 1 small onion
 2 eggs
 1 t chopped parsley
 $\frac{1}{4}$ t bacon fat

Put liver through meat grinder, add suet, salt and pepper. Soak the bread in water to cover until soft; squeeze dry and crumble into bits. Add to liver, together with the eggs well beaten, the parsley, nutmeg, onion minced and fried in the fat, and enough flour so that the mixture will hold together when boiled. Drop from spoon into boiling salt water and boil for 20 minutes. Serve with plenty of fried onions. Serves four to five portions.

Dick Williams, young son of Mr. and Mrs. Arthur Williams of Grayling, was seriously hurt this week while playing with a toy bow and arrow. The arrow "back-fired" into his eye. He was taken at once to Mercy Hospital. He was one of 15 schoolchildren brought in to have dental work done there.

Edmond A. Ruthkowski is privileged to be stationed at San Antonio Aviation Cadet Center, Texas where the boys are studying a rigorous 10-week program of instructions covering physical, academic and military training. They study maps and small arms and other subjects while being conditioned physically for the long training period ahead. Bombardiers, navigators and pilots receive the first five weeks of pre-flight instructions as a group, then are separated for a specialized training. We are proud to have one of our young men there.

The Mom's club will meet at the Grange Hall Monday night at 8:00 o'clock. The charter is still open and mothers wishing to do so may become enrolled as charter members at this meeting.

Mrs. Grace Markby, Mrs. Albert Markby, Mrs. John LaMotte and Mrs. Wilbur Sterling spent Saturday in Gaylord visiting Miss Rosalind Markby at the Sanitarium. Rosalind is coming along nicely and wishes to extend greetings to all her friends here.

A Veterans' Dinner was given at Zauel's, Thursday evening. Thirty-one guests were present, including quite a number of the visiting officers of the 728th Military Police Battalion on maneuvers here. Two of the main speakers of the evening were Col. Bagby and Capt. Harvey, of this Battalion. Clarence Johnson presided as toastmaster. The orchestra of the 728th furnished music for the evening. Jokes were told, songs were sung, and the dinner was completely enjoyed by all.

Mrs. Edward Penty was guest speaker at the Kiwanis Club luncheon Wednesday noon at Shoppemagons Inn. She told her audience about the workings of "Travelers' Aid", an organization functioning for the benefit of those coming into strange cities, where they do not know their way around and need assistance of some organization. Mrs. Penty was active in this work in Battle Creek, and told of the work of the organization and of some of her personal experiences. Her talk was most enlightening and revealing.

Production of maple sugar has declined rather steadily. In the period 1917-1920, the national average was about 21,500 tons of 2,000 pounds. By 1940, the annual output had dropped to 10,000 tons. This was a mere thimbleful tossed into a national sugar bowl annually requiring 5,500,000 tons (mostly cane and beet sugar) to fill it.

Vanilla Ice Cream
 Ice cream contains all of the nutritive elements of milk. It is rich in the very best of protein and contains liberal quantities of vitamins as well as calcium. Vanilla ice cream is made of about 80 per cent cream and milk products and 15 per cent sweeteners.

Soldiers vs. Civilians in Tomorrow's World

You hear some talk about how-when the war is over-there's going to be bad feeling between soldiers and civilians; how the country will be divided into those who fought in uniform and those who stayed at home.

Well, maybe you saw that letter from a soldier overseas, in one of our big magazines. It said that men in uniform aren't thinking any such thoughts anymore than folks at home are.

The most important thing is, that we're all engaged in one titanic struggle to preserve our
